

VIRTUAL COMMUNITY WORKSHOP

Campus Drive Complete Streets & Safety Study

Thursday, October 22, 6–7:30 p.m. | Virtual via Zoom

The Campus Drive Complete Streets & Safety Study will develop and analyze potential enhancements for all road users along Campus Drive between University Drive and Turtle Rock Drive. This segment of Campus Drive has high pedestrian and micromobility activity and has been prioritized in the City's Local Roadway Safety Plan.

We want to hear from you! Join us for a virtual meeting to explore potential transportation enhancements for the corridor and provide your feedback on proposed ideas.

For more information, contact:

Derek Meksavanh, City of Irvine
