Re: Support for Irvine's proposal for Amazon's New Headquarters

Dear Mayor Wagner:

On behalf of the City of Anaheim, I am writing in support of your collaborative proposal between the City of Irvine and the Irvine Company to secure Amazon's second headquarters (HQ2) for Orange County.

With a population over three million people, Orange County is a dynamic region with much to offer. Already home to some of the world's top companies, Orange County represents a highly desirable location for any business. With our proximity to key distribution routes, a strong customer base, a well-educated workforce, ideal climate, and of course our incredible neighborhoods; each one of our 34 cities within the county presents unique opportunities to accommodate all that Amazon seeks for its new headquarters.

Specifically, in Anaheim, with over 20 million visitors annually, we have become a world-class destination with year-round entertainment amenities and recreational opportunities. Considering our workforce and existing infrastructure, we stand in support of this new effort to bring Amazon to Orange County and the benefit that it would bring to the entire region.

Please add the City of Anaheim to the list of supporters and feel free to call us should you need further assistance in pursuing this important objective for the entire Orange County region.
