

New Law Affects Your Food Service Tenants

California's AB 1276 requires all food facilities to provide disposable foodware by request only. Share this with your restaurant and food service tenants to help them stay in compliance.

- Utensils and condiments must not be automatically included.
- Customers must ask for forks, knives, spoons, and chopsticks.
- Straws, stirrers, and condiment cups are also request-only.
- Online ordering menus must offer an opt-in for accessories.
